With the Tornado Cutter III, we present an intelligent, easy to use, powerful machine concept.

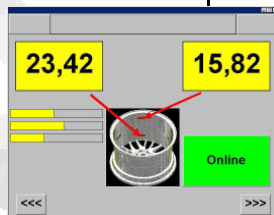

The machine processes 3M Wheel Weight material of various dimensions and weight.

Balancing weights are cut without any

dust in required weight and marked in centre.

The 10" touchscreen is the perfect interface between man and machine. It is characterized by simple, intuitive operation.

In online mode, we receive the data from the balancing system and provide the weights directly to the operator.

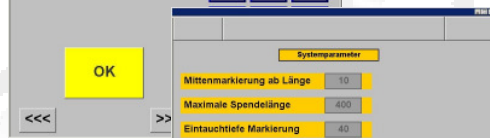

Simple, intuitive operation

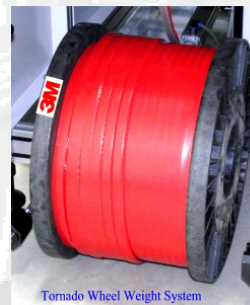

clear structure

save operation

Perfect !

Balance weight glued to the wheel

Our strengths:

Competence

Precision

Punctuality
